MAGE
VERSION
2020

The latest model is called Duo.

Two completely separate areas, to allow some of you to enjoy the "swim" version while others relax in the hot tub. Physical exercise, whether it be counter-current swimming or any other aqua fitness activity, normally requires temperatures that are far lower than the hydromassage bathtub.

Two ergonomic seats and a two loungers; five counter-current jets and a vertical hydromassage area on the other.

Compact spaciousness.

MAGE
VERSION
2020

The most spacious private swimming pool on the market.

It offers a large bathing area and a complete vertical massage column. The whole family can enjoy this Swimspa: children use it as a mini pool, it is the perfect size for them, and adults have a 4-metre area where they can do any aqua fitness or aqua gym exercises, alternating with an exceptional massage with a vertical massage column, featuring a total of 16 massage points.

Much more than health.

The **Swimspa** of **Aquavia Spa**, are a mix between wellness and fitness, with the function of a whirlpool or a mini-pool.

The Swimspa are designed not only for the practice of countercurrent swimming, but also for other activities, such as swimming and physical exercises in the pool.

Aquavia Spa offers the **fitness pack** and the **Aquabike** to enjoy different alternatives to counter-current swimming, a with the purpose for well-being and quality of life.

Aquabike

Fitness kit

Elastic bands

To perform fitness exercises. They are installed using the hot tub's stainless steel bars.

Kit

Rowing

Two oars installed on the hot tub wall, with elastic bands that allow you to adjust the tension.

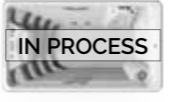

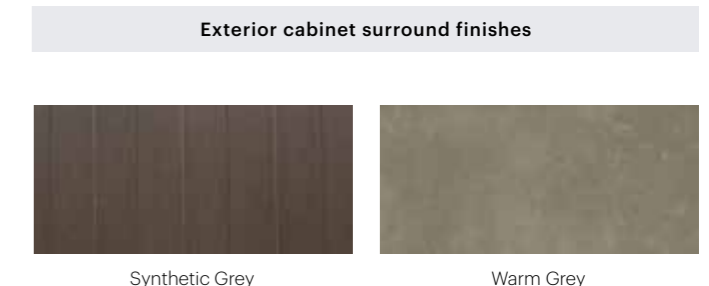

Swimming kit

Pole and harness

For swimming, it is easily installed on the surface of the hot tub. This means that you can swim comfortably without having to worry about moving forwards.
